Examiner Note: You must sign this form unless it is an Attachment to a signed Office action.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Ways to amend the claims or provide external evidence to obviate the grounds of the 102 rejection based on Luo et al. were discussed. Some of the specifics discussed concerned possible approaches to defining nerve regeneration or adding some type of treatment time course limitation to the claims. The Examiner noted that most of the specification was drawn to a transgenic knockout animal model, so Applicant was warned to indicate in any amendment where the specification support is for that amendment (by page and line number) in order to try to avoid a new matter type rejection .
